

*City of Prineville, Oregon
Financial Report
Fourth Quarter Ended
June 30, 2018*

Executive Summary

Through the fourth quarter, ending June 30th 2018, the City's financial condition increased by approximately 49 percent or \$4.8 million. We are currently in our yearend audit process and some adjustments are still to be made. Property taxes, franchise fees, and SDC collection are the largest contributing factors to the increase in the City's financial condition. Fund's that have significant positive impacts to the City's financial condition included General Fund, Planning, POB Fund and all the SDC Funds. City funds with decreases in fund balances are largely due to capital improvements and scheduled debt service payments. Fund's that had significant negative impacts to the City's financial condition included LID Debt Service, Airport and Water fund.

Through the fourth quarter, General Fund revenues came in at approximately 118 percent of the annual budget or \$6.39 million. Year to date property tax revenue is roughly \$2.07 million or 101 percent of the annual budget which is an increase of roughly \$103,000 over prior year. Transient lodging taxes are flat in comparison to the prior year at roughly \$329,500. Franchise fees are at roughly 113 percent of the annual budget and collection increased approximately \$248,000 over last year during the same time frame. This increase continues to be associated to the upward trend in electrical franchise fees collection with the continued build out of the data centers. Electrical franchise fees are up by approximately \$258,000 over prior year. The General Funds ending balance increased approximately \$312,000 through the fourth quarter with an unaudited balance of roughly \$1.90 million.

Local development continues to positively affect the Planning and the SDC funds. There were 20 housing starts during the fourth quarter that paid SDC's. A supplemental budget was adopted for the Transportation SDC and Water SDC fund to cover the administration fee from SDC's collected. The major project in the Water SDC and Wastewater SDC funds is the airport industrial park utility improvement project which will support growth in that area.

The LID Debt Service Fund is as anticipated with the closing of the fund being declared with resolution NO. 1354 during the fourth quarter. Fund balance was transferred to the General Fund.

During the fourth quarter, a supplemental budget was adopted for the PERS / POB Fund per resolution NO. 1352. The POB debt was refunded in June allowing the city to get out of some restrictive covenants associated with the original financing. Fund balance increased roughly \$307,000 or 55 percent.

The Railroad Fund saw a decrease to fund balance of approximately \$10,000 or -1 percent through the fourth quarter. Rail traffic has decreased over the last several quarters. This decrease is directly related to high tire inventory levels at Les Schwab. Freight traffic has become more diversified with new wood chip haulage helping to back fill the freight revenue gap from the decrease in Les Schwab cars. Operating revenue is down approximately -33 percent while operating expenditures are up roughly 2 percent over the prior year at quarter end. A budget adjustment was done prior to yearend allowing for the additional materials and services associated with the DEQ cleanup and maintenance of way costs not anticipated in the original budget.

June 30, 2018

The airport fund balance decreased approximately \$22,000 through the fourth quarter. Overall charges for services are down roughly -4 percent over the prior year partially due to Hillsboro Aero Academy moving their flight school to the Redmond airport in March. The USFS airbase project has been ramping up during the fourth quarter. This project is a multi-phased project that includes multiple funding sources including a Connect Oregon grant, COAR grant and FAA grant. Fuel inventory is approximately \$51,300 at yearend.

The Water Fund's fund balance decreased roughly -5 percent through the fourth quarter, largely due to capital improvements associated with the public facilities water master planning, the aquifer storage and recovery project and the Fairview waterline project.

Meadow Lakes Golf fund balance increased roughly \$41,000 through the fourth quarter, with rounds of golf increasing over the prior year by roughly 260 rounds. Significant smoke and the eclipse event last summer impacted operating revenues for the restaurant and golf. Both golf and the restaurant had a strong fourth quarter with fourth quarter only comparisons for the restaurant up approximately \$20,000 over the prior year same time frame and golf revenues coming in at roughly 136 percent of the quarter budget. Expenditures are up compared to the prior year with management monitoring them closely.

Other enterprise funds are as anticipated with insignificant change to fund balance through the fourth quarter. Internal service funds are as anticipated.

A summary is presented in each fund to provide an explanation of financial performance and operating issues. We appreciate comments on how we may be able to improve this report to enhance your understanding of the City's finances.

Sincerely,

Steve Forrester,
City Manager

Liz Schuette,
Finance Director

Lori Hooper,
Accounting Manager

June 30, 2018

General Fund

The General Fund accounts for the City's police and non-departmental operations and activities. The primary sources of revenue include property taxes, transient lodging taxes, franchise fees, and intergovernmental revenue.

At the end of the fourth quarter, overall revenue collection was at approximately \$6.39 million with roughly \$2.07 million coming from property taxes. Property tax revenue is roughly 101 percent of the annual budget which is an increase over the prior year of approximately \$103,000. Transient lodging taxes are flat over prior year at roughly \$329,500. Franchise fees are at roughly 113 percent of the annual budget and collection increased approximately \$248,000 over the last fiscal year. This increase continues to be associated with the upward trend in electrical franchise fees collection brought on by the data center build outs. Electrical franchise fees are up by roughly \$258,000 over prior year.

Police spending through the fourth quarter was at approximately 99 percent of the annual budget with budget adjustments required in personnel services due to unanticipated staffing needs during the eclipse event and in capital outlay largely due to the acquisition of new vehicles and the equipping of those vehicles. Non-departmental is at 92 percent of the annual budget with a budget adjustment that was needed largely due to the maintenance and improvements for the Barnes Butte property and prefunding the airport for operating cash flow. Fourth quarter council expenditures included a \$5,000 contribution for the pool survey and over \$4,000 in grant funds being disbursed to local businesses for the Downtown Revitalization Grant Program.

Overall, the General Fund realized an increase in fund balance of approximately 20 percent or \$312,000 through the fourth quarter. Unaudited ending fund balance is approximately \$ 1.90 million, which is better than anticipated compared to yearend estimates. The favorable variance in yearend estimates compared to actual is largely due to electrical franchise fees coming in higher than anticipated.

Notes: Per resolution NO. 1353 a budget adjustment was done in Police and Non-Departmental largely due to the purchase of new police cars and a needed improvements for the Barnes Butte facility.

Transportation Fund

The Transportation Fund accounts for the operation and maintenance of the City’s streets, bike lanes, and sidewalk systems. Principal sources of revenue are state gas taxes allocated to cities, permits, and interest. Principal expenditures are for public works staff, patching, painting, slurry seals, signals, insurance and asphalt.

Fourth quarter revenue, for the Transportation Fund, came in at approximately 99 percent of the annual budget. Intergovernmental revenue collection is at 113 percent of the annual budget. The State of Oregon gas tax came in at approximately \$619,900 through the fourth quarter which is an increase from the prior year fourth quarter end of roughly \$47,000.

Expenditures through the fourth quarter are roughly 97 percent of the annual budget. Capital expenditures through the fourth quarter totaled approximately \$640,000 with the 2018 crack sealing project finalizing during the fourth quarter. Personnel services were roughly 99 percent of the annual budget.

Unaudited ending fund balance increased roughly \$48,000 or 18 percent to 318,000.

Emergency Dispatch Fund

This fund accounts for the Emergency Dispatch operation. The operation provides dispatching and records management services for the public safety departments serving the Crook County area, with the exception of the State Police. The primary revenue sources are payments by users for services provided, including a transfer from the City’s Police Department in the General Fund. The operation is managed by the City’s Police Department.

Revenue collection for the Emergency Dispatch Fund was approximately \$1.52 million or 102 percent of the annual budget. Fourth quarter revenue collection came in at roughly 94 percent of the quarter budget. Intergovernmental collection during the fourth quarter included roughly \$123,000 from the State of Oregon for E-911 funds with \$43,000 of those dollars for the reimbursement of the phone system and approximately \$78,000 from the county for dispatching services.

Expenditures are approximately \$1.49 million or 92 percent of the annual budget. Personnel services are at 91 percent of the annual budget with overtime at approximately 310 percent of the annual budget due to being understaffed. The open dispatcher positions were filled during the fourth quarter. This fund required a budget adjustment in capital due to the 911 phone system upgrade.

The Emergency Dispatch Fund increased its unaudited fund balance by roughly \$33,000 or 9 percent at yearend. This is a favorable variance of roughly \$70,000 in comparison to the yearend projections. The largest contributors to the variance were savings in personnel services due to the timing in which the new dispatchers were hired and E-911 revenue coming in for the reimbursement for the phone system upgrade.

Notes: Per resolution NO. 1353 a budget adjustment was done in both capital outlay and materials and services largely due to the upgrading of dispatches phone system and radio equipment.

Planning Fund

The Planning Fund accounts for the planning activities of the City. A transfer of funds from General Fund to Planning helps support the short term planning needs of the city. General administrative costs are paid through internal charges to the Internal Services Fund for the following services based upon the cost to the department for using these services; administrative and financial services, risk management, computer and phone services. The costs of these services are at full cost, including replacement cost, thereby providing a more accurate cost of providing services.

Fourth quarter revenue collection came in at approximately \$212,000 or 211 percent of the quarter budget. Revenue collection through the fourth quarter for licenses and permits is at approximately \$48,000 with roughly \$11,700 coming in the fourth quarter. Prior year collection was at approximately \$57,000 at year end. There were approximately 20 housing starts during the fourth quarter.

Expenditures incurred during the fourth quarter came in at approximately \$68,000 or 69 percent of the quarter budget with overall expenditures at roughly 88 percent of the annual budget. Personnel services were at 86 percent of the annual budget with the departure of the Planning Director in March and the addition of an Associate Planner in June.

Unaudited ending fund balance is increased approximately \$127,000 through the fourth quarter. Actuals compared to yearend estimates are showing a favorable variance of roughly \$26,000 largely due to an overall savings in personnel services.

Transportation SDC Fund

This fund accounts for the collection and expenditure of transportation system development charges. The primary revenue source is SDC's. Expenditures are for qualified capital improvement projects and related costs.

Revenue collection through the fourth quarter for the Transportation SDC Fund is at approximately 149 percent of the annual budget. Fourth quarter SDC collection came in at roughly \$64,000. Total collection at yearend is approximately \$525,500 which is approximately 148 percent of the annual budget. Local development, through the fourth quarter, continued to positively affect the SDC funds with roughly 20 housing starts paying SDC's.

Yearend audit adjustments are still being made. Expenditures during the fourth quarter totaled approximately \$36,000. Fourth quarter capital expenditures are roughly \$10,000, largely for a property acquisition. Budget adjustments for capital outlay and transfers were done for capital projects not originally anticipated and to capture the five percent administrative fee.

Unaudited fund balance increased approximately 84 percent or \$437,000.

Notes: Supplemental budget adopted per resolution NO. 1352. Adjustment in both capital outlay and transfers done to adjust for capital project not anticipated in original budget and to capture the 5% admin. fee.

June 30, 2018

Water SDC Fund

This fund accounts for the collection and expenditure of water system development charges. The primary revenue source is SDC's. Expenditures are for qualified capital improvement projects and related costs.

Fourth quarter revenue came in at approximately \$77,600 with roughly \$66,000 coming from system development charges. Local development, through the fourth quarter, continued to positively affect the SDC funds with roughly 20 housing starts paying SDC's.

Yearend audit adjustments are still being made. A budget adjustment was done prior to yearend in transfers to allow for the total administrative fee with the additional SDC revenue that was collected. Fourth quarter capital expenditures were largely for the industrial park utility improvement project.

Unaudited fund balance is roughly \$1.5 million. Projected to actual revenue comparisons are showing an unfavorable variance largely due to an expected development agreement not finalizing by the end of the fiscal year.

Revenue	Current Quarter		Quarter Budget %	Year to Date		Annual Budget %	Annual Budget	Year-end Estimate	Difference Favorable/ (Unfavorable)

Note: Supplemental budget adopted per resolution NO. 1333 and resolution NO. 1352. Adjustment in transfers done to capture the 5% admin. fee.

Wastewater SDC Fund

This fund accounts for the collection and expenditure of wastewater system development charges. The primary revenue source is SDCs. Expenditures are for qualified capital improvement projects and related costs.

Fourth quarter revenue collection came in at approximately \$152,000 with roughly \$137,000 coming from SDC's. Local development, through the fourth quarter, continued to positively affect the SDC funds with roughly 20 housing starts paying SDC's.

Expenditures during the fourth quarter totaled roughly \$1.19 million or 93 percent of the quarter budget. Fourth quarter capital expenditures were largely for the industrial park utility improvement project.

Audit adjustments are still being done. Unaudited fund balance increased roughly \$2.22 million through the fourth quarter to approximately \$2.28 million. Projected to actual revenue comparisons are showing an unfavorable variance largely due to an expected development agreement not finalizing by the end of the fiscal year.

June 30, 2018

LID Debt Service Fund

This fund accounts for the repayment of debt issued to finance property owner requested infrastructure projects. The primary revenue source is payment of assessments by benefited property owners.

Fourth quarter revenues and expenditures are as anticipated with the closing of this fund being declared with resolution NO. 1354.

June 30, 2018

PERS/ POB Fund

This fund accounts for the issuance of pension obligation bonds to fund the City’s existing unfunded actuarial liability (UAL) and associated debt repayment. The principal source of revenue is charges to other funds with salaries subject to PERS via a surcharge. Expenditures are payments for debt service requirements.

Fourth quarter revenues included debt proceeds associated with the refunding of the city’s pension obligation bonds in the amount of roughly \$2.55 million. The refunding allowed the city to get out of some restrictive covenants associated with the original financing.

Fourth quarter expenditures are largely associated with the payoff of the original POB debt service.

Notes: Supplemental budget adopted per resolution NO. 1352 due to the refinancing of the POB.

Railroad Fund

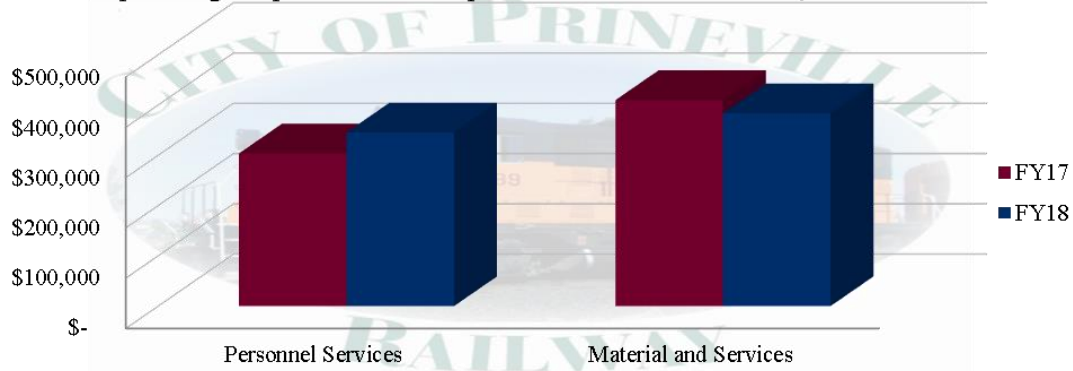

This fund accounts for the activities of the City’s railroad operation and for the City’s freight depot operation. Starting in FY 14 the Railroad and Freight Depot Funds were consolidated. Primary revenue sources are payments for the use of railroad and freight depot facilities and related services. Expenditures are for the railroad and freight depot operations, including repair, debt service and capital improvements. Additionally, transfers to other City operations are budgeted.

During the fourth quarter overall revenues are 53 percent of the quarter budget. Charges for services for the railroad are at approximately \$413,000 or 62 percent of the annual budget and freight depot charges for services are approximately \$220,500 or 81 percent of annual budget. Overall operating revenue comparisons to prior year are down roughly -33 percent. This decrease is largely due to a decrease in Les Schwab traffic with their tire inventory levels being high during the winter months due to a mild winter. This directly impacts freight and demurrage revenue. Freight traffic has become more diversified with new wood chip haulage helping to back fill the freight revenue gap from the decrease in Les Schwab cars. Below is a breakdown of the funds major revenue sources compared to prior year collection at yearend.

Overall expenditures through the fourth quarter are at approximately \$825,000 or 75 percent of the annual budget. Personnel services are at roughly \$345,400 or 82 percent of the annual budget. Prior year comparisons show operating expenditures up a combined total of approximately 2 percent at quarter end. A budget adjustment was done in materials and services for the DEQ cleanup and maintenance of way costs not anticipated in the original budget. Towards the end of June, the City of Prineville Railway kicked off a string of events to celebrate its 100 year anniversary. To kick off the festivities, free train rides were given to citizens.

Operating Expenditure Comparison to Prior Year at Quarter End

Unaudited fund balance is at approximately \$1.05 million, a decrease of roughly \$10,000 or -1 percent. Comparisons of actuals to yearend projections show an unfavorable variance largely due to the decrease in rail traffic.

	Current Quarter		Quarter	Year to Date		Annual	Annual	Year-end	Difference

Notes: Per resolution NO. 1353 a budget adjustment was done in materials and services largely due to the DEQ shop clean up.

Airport Fund

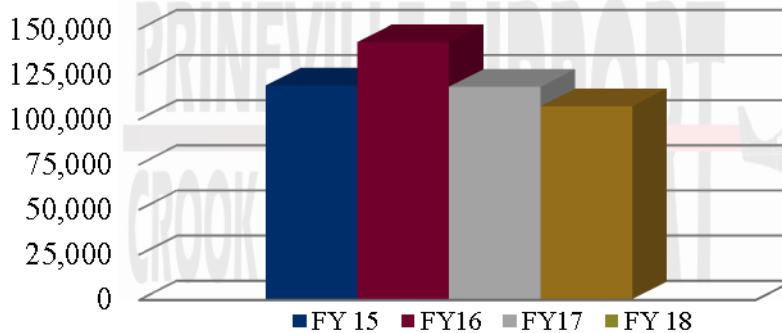

This fund accounts for the activities of the Prineville-Crook County Airport. It is a joint venture between the City and the County. The airport is owned by the county and the city manages and provides the accounting. Both the city and the county support operations. The airport’s main source of operating revenue is through charges for services that revolve around fuel sales and hangar leases. Expenditures are for general operations of the airport including cost of goods sold, maintenance and capital improvements.

Overall revenues through the fourth quarter are approximately 13 percent of the annual budget or \$965,000. Fourth quarter intergovernmental revenue is mostly associated with the United States Forest Service airbase project which has started to ramp up. Approximately \$90,000 in intergovernmental revenue came from Crook County for operations support. Fuel sales are at roughly \$403,700 and hangar lease charges are at approximately \$64,300 through the fourth quarter. Hillsboro Aero Academy moved their flight school to Redmond at the end of the third quarter which has played a role in the decrease in fuel sales over the prior year. Overall charges for services are down in comparison to the prior year by roughly -4 percent. Below is a comparison to prior year for the revenue sources that make up charges for services at quarter end.

Charges for Services Comparison to Prior Year Quarter End

Gallons sold by year

Expenditures are at approximately \$987,000 or 13 percent of the annual budget. Capital expenditures during the fourth quarter included a truck with plowing attachment and the USFS

airbase project moved into phase II during the latter half of the fiscal year. Below is a comparison of operating expenditures to the prior year at quarter end.

Operating Expenditure Comparison to Prior Year Quarter End

Unaudited fund balance is down approximately \$22,000 or -33 percent through the fourth quarter. Fuel inventory at quarter end is roughly \$51,300.

Water Fund

This fund accounts for the activities of the City’s water utility. The primary source of revenue is water sales and expenditures are for the operation of the system including repair and maintenance of infrastructure.

Overall revenue collection in the fourth quarter came in at approximately \$986,000 or 72 percent of the quarter budget. Revenue associated with charges for services came in at roughly \$780,000 or 113 percent of quarter budget. Charges for services revenue came in better than anticipated largely due to reimbursements for the aquifer storage and recovery project. Overall revenues through the fourth quarter are at approximately 107 percent of the annual budget.

Fourth quarter expenditures are at roughly 62 percent of the quarter budget. Capital improvements during the fourth quarter were at approximately \$505,000. Fourth quarter capital improvements that took place were largely for public facilities water master planning, the aquifer storage and recovery project and the Fairview waterline project.

Unaudited ending fund balance through the fourth quarter decreased by roughly \$84,000 or -5 percent. This fund required a supplemental budget due to the aquifer storage and recovery project and the refunding of the 2011 bonds, within that supplemental budget the franchise fee to transportation fund was inadvertently left off the total and will need a budget adjustment in FY 2019 to correct.

Note: Supplemental budget adopted per resolution NO. 1333 and resolution NO. 1352 for adjustments in capital outlay for the ASR project and in debt service for the dollars that were in escrow for the 2011 bond debt service.

June 30, 2018

Wastewater Fund

This fund accounts for the activities of the City's wastewater and treatment facilities. The primary source of revenue is sewer service fees. Expenditures are for the operation of the wastewater system including repair and maintenance of infrastructure and debt service related to infrastructure costs.

Overall revenue collection through the fourth quarter came in at approximately \$12.46 million or 97 percent of the annual budget. Fourth quarter revenue collection for charges for services was roughly \$859,000 or 99 percent of the quarter budget. Sewer service fees increased approximately 6 percent over the prior year with connections increasing by roughly 70 over the previous year.

Expenditures are at roughly 95 percent of the annual budget. Fourth quarter capital expenditures are largely for aeration system improvements at the treatment plant. These improvements are part of an energy efficiency program and will be partially reimbursed through the Energy Trust of Oregon. This fund required a supplemental budget prior to yearend in capital outlay for the aeration system improvements and continued wastewater testing at the wetlands and in personnel services for accrued absences.

The unaudited ending fund balance increased through the fourth quarter by roughly \$5,500.

Golf Course and Restaurant Fund

This fund accounts for the activities of Meadow Lakes Golf Course and Restaurant. Revenue is generated through user fees, restaurant sales, and an operating payment from the City’s Wastewater Fund for treatment.

Revenue collection through the fourth quarter is at approximately 96 percent of the annual budget or \$1.90 million. Golf revenue is at roughly \$702,000 or 92 percent of the annual budget through the fourth quarter. This is an increase over prior year by approximately \$20,000 or 3 percent with the fourth quarter golf revenues ending strong at 136 percent of the quarter budget. Rounds of golf increased over the prior year by approximately 260 rounds. Restaurant revenues are at approximately \$393,000 or 89 percent of the annual budget through the fourth quarter. This is a decrease over prior year by roughly \$3,000 or -1 percent. Significant smoke and the eclipse event last summer impacted operating revenues for the restaurant and golf. Comparing fourth quarter only revenues show the restaurant operating revenues up by approximately \$20,000 over the prior year’s fourth quarter. Below is a comparison to the prior year at quarter end of the significant operating revenue sources for golf and the restaurant.

Overall expenditures through the fourth quarter came in at roughly \$1.86 million or 97 percent of the annual budget. Overall expenditures for the golf course are roughly \$422,000 or 91 percent of the annual budget. Restaurant operating expenditures through the fourth quarter are approximately 94 percent or \$532,000. Overall operating expenditures have increased over the prior year by roughly 5 percent. Below is a comparison of operating expenditures to the prior year by department.

June 30, 2018

Unaudited ending fund balance increased roughly \$41,000 or 10 percent through the fourth quarter. Comparisons of actual to yearend estimates show a favorable variance partially due to miscellaneous revenue associated with insurance checks reimbursing for a sign that was damaged during a wind storm and a truck that was vandalized during the fourth quarter.

Note: Supplemental budget adopted per resolution NO. 1333 and resolution NO. 1352. An adjustment for the dollars that were in escrow for the 2011 bond debt service will likely be needed prior to year end.

June 30, 2018

Administration and Financial Support Services Fund

This fund accounts for the activities of the City Manager’s office, human resources, recorder, contracts / procurement, finance, Council directed contributions, and information technology services. The primary source of revenue is charges to other funds for services.

Overall revenue collection through the fourth quarter came in at approximately \$2.44 million or 112 percent of the annual budget. The yearend audit process is still in process and revenues for this fund may not all be captured.

Overall expenditures for the fourth quarter end are at roughly 97 percent of the annual budget. Fourth quarter city council expenditures included the annual contribution to the Fourth of July firework display, insurance for the cattle drive and a high school scholarship donation. Information technology is at roughly 99 percent of the annual budget with fourth quarter capital expenditures taking place for upgrading the financial software in utility billing and accounts receivable modules. Finance is at 98 percent of the annual budget. Administration / team services required a budget adjustment prior to yearend due to payroll accruals, a compensation study and services from Stingray Communications that were not anticipated in the original budget.

Unaudited ending fund balance increased approximately \$49,000 or 11 percent through the fourth quarter.

Notes: Per resolution NO. 1353 a budget adjustment was done in the Administration / team services department for Stingray Communications services, compensation study, and payroll accruals not anticipated in the original budget.

Building Facilities Fund

This fund accounts for the operating costs of the city hall facility and related debt service, police facility, and public works facility. Revenue is received through rental charges to user departments and activities.

Revenues are currently 48 percent of the annual budget with fourth quarter revenues coming in as anticipated. Originally budgeted revenues associated with the renovation of the police facility did not come in during FY18 since the project has not started. It was announced in April 2017 that the City of Prineville was awarded roughly 1.2 million in state grant funds to improve the structural integrity of the City's police facility to withstand a major earthquake.

Overall expenditures through the fourth quarter are roughly 47 percent of the annual budget. Expenditure yearend estimates compared to actuals show a favorable variance in both the city hall and police facility with savings in materials and services. Public works facility required a budget adjustment for the repair of a door that was not anticipated in the original budget. The Barnes Butte Complex will be accounted for in this fund starting next fiscal year.

Fund balance decreased approximately \$9,000 or -4 percent through the fourth quarter.

Note: Supplemental budget adopted per resolution NO. 1333. Per resolution NO. 1353 a budget adjustment was done in the Public Works Facilities department for the repair of a door not anticipated in the original budget.

Plaza Maintenance Fund

This fund accounts for the maintenance of the plaza joining City Hall and the Crook County Annex building. The county and the city maintain the plaza in a joint effort. Starting in 2005 the county was responsible for accounting for the maintenance of the plaza per a city and county agreement. The agreement has been revised and the city starting FY 13 now assumes the responsibility of accounting for the plaza maintenance. Revenues are generated through a transfer from the city with matching monies from the county. Expenditures are for maintaining the landscaping, sidewalks and lighting.

Overall revenues during the fourth quarter included invoicing to the county for plaza support for both FY17 and FY18 as contract negotiations were being finalized.

Overall expenditures through the fourth quarter are at 90 percent of the annual budget. Yearend estimate comparisons to unaudited actuals show an overall favorable variance in materials and services with savings in irrigation repair/ maintenance.

Unaudited ending fund balance is approximately \$41,500. Ending fund balance will be finalized after the audit has been completed by December 31st, 2018.

Public Works Support Services Fund

This fund accounts for the activities of the Public Works management and support staff, fleet and vehicle maintenance and public works office space operating costs. The primary source of revenue is charges to other funds for services.

Revenues are at 104 percent of the annual budget through the fourth quarter.

Overall expenditures through the fourth quarter are at approximately \$1.74 million or 98 percent of the annual budget. The Public Works Fleet and Vehicles department needed a budget adjustment prior to the yearend due to the unanticipated capital outlay expenditures of constructing a sanding shed. Public Works Support Services department required a budget adjustment at yearend in personnel largely related to the accrued absences liability.

Fund balance decreased roughly \$37,000 or -12 percent through the fourth quarter.
