

ORDINANCE NO. 917

AN ORDINANCE AMENDING NO. 910, ADDING RATES FOR STANDBY FIRE PROTECTION AND AMENDING THE CURRENT RATES FOR CONNECTION OF SERVICES.

THE PEOPLE OF THE CITY OF PRINEVILLE, OREGON, ORDAIN AS FOLLOWS:

The following rate schedules for the City of Prineville water system are hereby added and/or amended as per the attached schedules:

- (a) Standby Fire Protection
- (b) Connection of Service.

Passed by the City Council this 8th day of December, 1987.

Approved by the Mayor this 8th day of December, 1987.

Henry Hartley
City Administrator/Recorder

Wallace L. Boe, Mayor

CITY OF PRINEVILLE
WATER RATES
CONNECTION OF SERVICE

(a) The point of delivery shall be, at a mutually acceptable location, from City main adjacent to the property line, or curb line, of the premises upon which the water service is to be utilized by the customer.

(b) City shall not be required to install or maintain more than one service extension from its distribution mains to supply the same class of service to any one customer. Each customer shall furnish, own, install and maintain, at his own expense, all piping, plumbing, equipment, and faucets located beyond the point of delivery.

(c) Where service is to be newly established at a point of delivery, requiring that City install a service pipe, the customer shall, at the time of application for service, pay City a connection charge. Said connection charge shall be:

 \$ 250 for service pipes of three-quarter (3/4) inch nominal diameter,
 300 for service pipes of one (1) inch nominal diameter,
 900 for service pipes of one & one-half (1 1/2) inch nominal diameter,
 1,100 for service pipes of two (2) inch nominal diameter,
 1,850 for service pipes of three (3) inch nominal diameter,
 1,900 for service pipes of four (4) inch nominal diameter,
 2,700 for service pipes of six (6) inch nominal diameter, and
 3,000 for service pipes of eight (8) inch nominal diameter.

The above connection charge shall be in addition to the purchase price of the necessary meter, said price to be paid by the customer.

(d) All plumbing and equipment located beyond the point of delivery, including outside hydrants and faucets, shall be connected to the service extension, at the expense of the customer and in such a manner that all water used by the customer shall pass through the meter.

(e) When temporary service is desired, the customer may be required to advance to City a sum equal to the estimated cost of labor and material, including reasonable overhead charges, necessary to install and remove such service connection. At the termination of the service period that portion of the advance which remains after deduction of the actual cost of labor and materials necessary to connect and disconnect such service (less the salvage value of material removed), will be refunded to the customer, providing that no regular charge for water service remains unpaid.

CITY OF PRINEVILLE
WATER RATES
STANDBY FIRE PROTECTION

AVAILABLE

Within the city of Prineville, Oregon, and environs.

APPLICABLE

To all residential or commercial users who request and are granted water service for standby fire protection only. This would typically be used for an inside sprinkler system separate from normal metered water service and would be a flat rate based upon size of line furnishing the protection.

MONTHLY RATE

FLAT RATE CHARGE

Flat Rate Charge	Size of Line
\$ 5.00	2" or less
7.50	3 "
10.00	4"
15.00	6"
20.00	8"

SPECIAL CONDITIONS

Water taken under this schedule is to be used only to extinguish fires and for flushing necessary to maintain fire protection equipment. In case of surreptitious or improper use of water, the consumption may be estimated or a meter may be installed, at the customers expense, and water used shall be billed at regular meter rates.

Any necessary enlargement or addition of mains will be provided by the City at the customer's expense.

RULES AND REGULATIONS

Service under this schedule is subject to the General Rules and Regulations contained in the ordinance of which this schedule is a part.
