CITY OF PRINEVILLE
WATER RATES
CONNECTION OF SERVICE

(a) The point of delivery shall be, at a mutually acceptable location, from City main adjacent to the property line, or curb line, of the premises upon which the water service is to be utilized by the customer.

(b) City shall not be required to install or maintain more than one service extension from its distribution mains to supply the same class of service to any one customer. Each customer shall furnish, own, install and maintain, at his own expense, all piping, plumbing, equipment, and faucets located beyond the point of delivery.

(c) Where service is to be newly established at a point of delivery, requiring that City install a service pipe, the customer shall, at the time of application for service, pay City a connection charge. Said connection charge shall be:

 \$ 250 for service pipes of three-quarter (3/4) inch nominal diameter
 282 for service pipes of one (1) inch nominal diameter
 970 for service pipes of one & one-half (1) inch nominal diameter
 1,100 for service pipes of two (2) inch nominal diameter
 1,850 for service pipes of three (3) inch nominal diameter
 1,900 for service pipes of four (4) inch nominal diameter
 2,700 for service pipes of six (6) inch nominal diameter

(d) All plumbing and equipment located beyond the point of delivery, including outside hydrants and faucets, shall be connected to the service extension, at the expense of the customer and in such a manner that all water used by the customer shall pass through the meter.

(e) When temporary service is desired, the customer may be required to advance to City a sum equal to the estimated cost of labor and material, including reasonable overhead charges, necessary to install and remove such service connection. At the termination of the service period that portion of the advance which remains after deduction of the actual cost of labor and materials necessary to connect and disconnect such service (less the salvage value of material removed), will be refunded to the customer, providing that no regular charge for water service remains unpaid.
