April 3, 2019

Dear Local Resident,

As part of our ongoing capital improvements program the City will replace the existing sewer along Garner Street from SE 4th Street, and along SE 5th Street and from Garner to Idlewood Street. The existing sewer is a 6" line and we will replace it with a new 12" line. The Sewer line work will begin soon and is expected to be complete prior to June 1st of this year. We plan to start on Garner and work to the East. Our current schedule shows us starting the sewer line installation on April 8th. What this means to you is that there will be some construction in your neighborhood which might make minor impacts to traffic in your area for a short time. You can help by not parking in the street as we work through your neighborhood. We will also experience brief sewer outages on the day we tie in the new sewer line. We will send out another letter closer to that time with further details.

If you have any questions please feel free to contact either myself or Pat Goehring, public works superintendent. Thank you for your patience as we upgrade our lines.

Sincerely,

Michael P. Kasberger
